Description Status

- ▶ Currently , the user can make a post and it saved in firebase. However, project status still consider yellow because I wanted to make UI when posted is created and have the user interact with post, but I get held back from my other course project and couldn't do that .

Past week activities

- ▶ Created post screen where the user can enter link , title , short description of the link and upload or have image URL then preview image before the user can add post.

demo
