Due: February 22, 2021

Project allocation: 8-10%

Description: As per activities in the "research & understanding the community" and "project management" phases, complete the following activities/documents and upload (PDF versions of) them to your project GitHub. It is up to the student to select what kinds of architectural diagrams and prototypes work best for them/the selected project.

- Architectural diagrams (data, UML, class diagrams)
- Low/Med/High Fidelity prototypes
